## MAPLETON POLLED SHORTHORNS

Bert Moore, 701.541.5035

## WELCOME ...

As I sit down to think about what to write I am enjoying some cooler weather. What started out as a great Summer with moisture and ideal conditions, turned into one with high heats and very spotty rain leading to drought conditions in Southwest Iowa. It has been one of the toughest Summers since living in this part of the state. The more years I gain with livestock and weather the easier it gets to look back on the time leading up to now.

That being said, my mind wanders to times that were simpler when I was in study hall in high school, or maybe that was the principal's office, I dreamed about having 100 Shorthorn cows someday as my Dad and Grandpa did and now the day has come and we have over 200. Where do we go from here - but to share them!

Every year we think it is our best group yet, but this group excels from the hard work we have done over the last 10 years in our herd. We believe, as do our friends the Gilman's and the Moore's, that the future of the Shorthorn breed has a place for these type of cattle. Many of the cattle in this sale go back to Saskvalley and Muridale breeding. They continue to work harder every day when they leave this farm for those that purchase them and we look forward to hearing from our customers every year about how they perform for them. Take time to study the pedigrees on these cattle and I am sure you will find something that will fit your operation.

Finally, this event could not be possible without the help of "everyone" from family and friends - and thank each and every one for all you do. Don't hesitate to reach out if we can help you prior to and on sale day. See you in October!

*Dale N. Studer*

Once again we are very excited to be a part of The Family Legacies Sale put on by the Studer Family. Looking through this catalog excites me about the genetic progress we are all making in this breed year after year.

It has been a trying year for several cattle operations with uncooperative weather throughout the country, but we feel every lot in this sale is a confident, and strong investment for the years to come. We hope to see you on October 14th in Creston, Iowa for another Family Legacies Sale.

You could write a book already on the young career of this bull. Ask Ethan and Cary what they have experienced with him. Even at 120 days running with 30 cows on pasture he looks ready for a picture. Last year his year calves were a main attraction and they will be again this year. Not only does he make the right kind, but his growth and performance numbers make him a total package. Take this opportunity to join the new legacy bull at Studer Shorthorns.

Here is a main attraction on sale day. Sonya has been a favorite since the day she was born. She soon became Brock's favorite in the show barn as well. She was recently name Junior Heifer Calf Champion and Reserve Grand Heifer at the Minnesota State Fair so it's safe to say she has caught the eye of many. Very balanced in design, soft footed, smooth made, and extremely eye appealing are words that have been used to describe her. She is out of one of my favorite Tradition daughters and yet another one sired by Unlimited who continues to impress those who walk through our pastures. Only to offer our best do we part with this one, she is already starting out on top.

MURIDALE MAYBEL 37X

MURIDALE MAYBEL 34A

Maybel is one of the more unique Unlimited heifers in the offering. She is a  $\frac{3}{4}$  sister to Sonya 11E and you can see the resemblance in the overall appearance, however, this one takes it a notch further in terms of power, length, and dimension. She probably adds more frame and skeletal growth potential as well. Ask, our good friend, Austin James, about this heifer on sale day. She is one of his favorites.

Behind every success is effort ... Behind every effort is passion ... Behind every passion is someone with the courage to try.

## GENERAL INFORMATION ...

**Terms:** The terms of the sale are cash or check payable to Aegerter Marketing Services, Inc. Payment to be made to the clerk immediately following the sale and before the cattle are removed from the Studer Farm. Purchasers or their representative must sign the bill of sale prior to leaving the sale site.

**Billed Accounts:** All billed accounts are due and expected within 10 days of the sale date.

**Insurance** will be available for your purchase at the sale through Harding & Harding. Contact either their representative or the clerk at the settlement desk.

**Health:** Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All vaccinations are up-to-date and cattle born at the consignors have been vaccinated. A list will be available on sale day listing any non-vaccinations.

**Breeding Guarantee:** All cattle sell under the Standard Breeding Guarantee recommended by the American Shorthorn Association. An exception would be through mishandling either obesity or under nourishment and illegal practices associated with showing the female.

**Liability:** Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees, auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

**Registration And Transfer:** All animals sell with completed pedigrees or applications for registration.

**Transportation:** The Family Legacies group will make every effort to assist you in your transportation needs. Local trucking will be available.

**Mail Bids:** Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of Aegerter Marketing Services, Inc., a special representative, a sale consultant or a member of the Family Legacies group far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

**Announcements** made sale day will take precedence over printed material in this catalog.

**Breeding Update/Calving Information:** There will be added information available at the sale site that will list any additions to the catalog information as to new calves born and new breeding information that will occur after the printing of this catalog.

Last year we got a glimpse of progeny from Bar N CoalPit. We were intrigued so he got moved up in the lineup with some very good young cows. As soon as those calves hit the ground he was moved up the lineup again. We are impressed. They are the kind you can't really go wrong with. Missie is one of the youngest heifers in the offering, but she doesn't give up much in terms of her growth and performance with pen-mates. She is beautifully designed in her femininity and offers several good qualities in her overall length and sound structure. A cow family that has been producing for us for a long time. Don't overlook this one.

Last year Patty had a full sister who was popular as great cow prospect that ended up in Michigan at Lone Oak Shorthorns. We liked the combination enough that we tried it again this year and the result will certainly not disappoint you. Structurally flawless, with extra body, balance, and power. Look closely here.

JSF Marquis 127X really needs no introduction as his reputation for sound, functional cattle with extra style and attractiveness is proven once again in these females. Jessie 33E is exactly what you would expect from a great Bonanza cow and 127X. She is maternal, yet powerful and flawless in her design and structure. She has been Collin's favorite in the show barn this summer and was named Reserve Junior Calf at both the Iowa and Minnesota state fairs. She will be one to find on sale day. Study closely.

This one is a masterpiece. She snuck out the gate the day we were bringing state fair calves in earlier this summer and I knew we should have went back and got her. She could have stood some stout competition for sure. She possesses extension through her front 1/3, coupled with the power and attractiveness to really stand out. That's just half of it, she is a curve bender in her numbers as well. Top 1% and 3% in WW and YW respectively, with above average CE and BW. Check out her older sister in the offering, as well, for more proof in what this cow's family can do. I'm wondering why we are letting this one go.

The Fantasy Girl cow family has been one of my most prolific and productive cow families since buying her grandmother from Alden's years ago, thirteen-years-old and she's still running on fescue never missing a beat. A full sib to this heifer was one of the top sellers in 2013 Family Legacies sale and we have another full sib from last year in our replacement heifer pasture. Guess you could say we like this mating and are offering you a chance. These are the kind of cattle that get better every day. This could be the sleeper in the sale.

Studer's Easy Living has an interesting story for us. He is a direct son of Alta Cedar Lad 13N and great Marquis daughter. As a calf, Jim Brower purchased him and had success, even selling semen. We liked how he matured so well that we were fortunate enough to get him back. We figured he'd add some color, but what we didn't know is how much style and quality he would bring. You will be hearing more about him, but Pretty Woman is a great way to start his campaign. She was popular at the Iowa State Fair in the stalls and was Reserve Senior Calf Champion. You will find her easily in a crowd.

We had a couple young Able heifers available for the sale in last year's Family Legacy Sale, but he was really showcased well in the spring bull sale offering. His sons were popular and these heifers will follow right in line. Red Jay is a heifer I've always liked and her mother is a can't miss cow, as well. Her first calf, Studer Snapchat, is currently a herd bull at Byland Shorthorns.

Another sound, stylish, and complete heifer that fits the mold of these Able cattle. You will appreciate her depth, easy-fleshing ability, and overall structural correctness. She is out of one of our best young Tradition cows we have—all of her heifer calves are still in production to date. This will be a great young cow prospect.

I think all of us on the farm can agree, out of all the heifer progeny from Sweet Lady, this heifer calf could have the brightest future. She has already been named Spring Heifer Calf Champion at the Iowa State Fair. She is put together like one should be, angular and feminine in her front one third, big footed, and carries an exceptionally true muscle expression over her top and lower quarter. Don't let this one slip through the cracks!

This female was the first Reincarnation calf we had on the farm. Her Diablo dam was purchased from Jungels' Shorthorn Farm last year as a bred heifer. In my opinion, her dam is what every commercial cow in the industry should look like. Her picture says it all about how much rib shape, muscle, and how powerful this young heifer is. This heifer would make a great project for a young junior.

We were fortunate enough to purchase a couple of Diablo daughters from JSF last fall knowing their potential as productive cows. Austin has got to be happy as anyone with the results of this one. She calves unassisted at 68 lbs and then turns into one of the most attractive, well designed, powerful, balanced heifers in the sale. She will catch your eye on sale day, will be fun to campaign for your young show person next year, and be a front pasture cow in your future. Don't miss out.

MURIDALE SODA 34P

T938

Another nice Bateman 1/2 blood heifer. Her blue roan dam was Bert Moore's favorite commercial cow when he was at our farm several years ago. Long bodied, clean fronted, with plenty of performance, she should produce some fancy colored calves.

If you've seen the name DHM Charlotte's Chance name around here the last couple of years, you will know he has become our "go to" calving ease specialist. And he continues to do great things for those who have invested in his progeny. This heifer does a lot right with her design, fleshing ability, and cow potential. She has both Saskvalley Quartz and Bonanza on her bottom side. Study this one.

Here is another interesting breeding piece to look at. Her sire, DHM Catalyst, got more use this year after seeing the productivity in this calf crop. Red Envy is out of a first calf heifer that I have been excited about and she gets better every day. This cow family has become very popular in our operation with their look, productivity, and efficiency. Here is a chance to find that out for yourself.

This is another opportunity for a Bateman female. This heifer's dam was Champion Cow/Calf at the Iowa State Fair in 2015. Based upon her pedigree; udder quality, fleshing ability, and productivity, should never be a question with her. A herd of 100 females like this one could generate a lot of revenue for a cow/calf operator. Top 10% for Stay, and CEM.

This heifer's dam was purchased from Stangl Shorthorns two years ago and we have been extremely pleased with her. This female was our first look at Goldenrod and you can see our opinion of him by the amount of our heifers bred to him. This female just screams cow, she is long bodied, well designed in her skeletal makeup, and sure to be a low maintenance cow. Which makes sense why she ranks in the top 5% in several maternal EPD's.

AI'd to Muridale Bateman; due 2/9/18.

Here is a young cow that we held over her first year. She had a nice steer calf her first year and many years of production ahead of her. Her eye appeal and femininity make her a cow that can be mated anyway you like to. Look for a calving-ease herd sire from this mating.

MURIDALE JEANY 20W

MURIDALE SEAL 64P

MURIDALE JEANY 34J

This cow has a three-year old daughter in the herd and this year her bull calf is in the sale pen for the online bull sale. She goes back to Saskvalley Tradition 106T and has produced some of our best females on the place.

Bred to DMH Catalyst on 4/2/2017. Pasture exposed to Studer's TPS Unlimited 5/4/2017 - 8/27/2017

**Consigned by Studer Shorthorns**

From the picture you may wonder where the mud came from because Warren County, Iowa is experiencing one of the driest summers on record but I do have a spring in my pasture. This is a long bodied, feminine, hard-working cow with an excellent udder. Her bull calf will most likely be my highest indexing at weaning time. AI bred on June 6, 2017 to JSF Top Hand 34R x, \$BMI of 132.71 (top 15%), the Jungels and Bowman herd sire and sire of Moellenbecks' Agribition Grand Champion bull in 2015, Bell M Foreman 30A x.

Bred to JSF Top Hand 34R.

It is a sad day that the guys decided this cow is in the sale. The guys loaded her out of the pasture and slipped her number in on the sheet of sale cows. The Sasha cow family has a soft spot in the heart for Jenny and always produces. This cow has had three sets of twins and never misses. Go home and start your own Legacy with the Sasha cow family.

Pasture exposed to Saskvalley Able 4/22/2017-8/27/2017.

This moderate framed solid red cow has years ahead. She has had two bulls sell in our online bull sale and has a third one for this Spring. She is one that we always like to look at in the pasture and believe she will be one you will like in your pasture as well. Her mating is pretty special! The cows selling bred to him will make a difference in your operation, also.
